

Year 4 Spring 1 Highlights

We have had such a fantastic start to 2022! The children are thriving in 4 Lowry, we are starting 2022 off as we mean to go on! Have a look what we have been up to...

We kicked off the new year with a whole school art day, based on local artists. Our artist was Kelzo – a graffiti artist from Manchester. We really enjoyed examining some of his work over the years and then having a go at creating our own – we even added a digital touch to it!

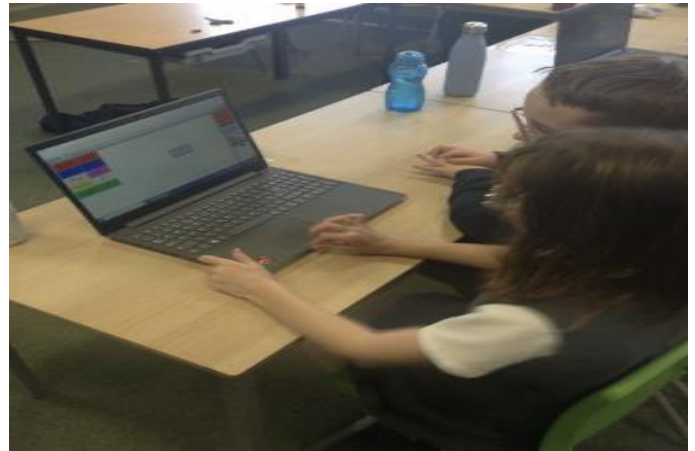

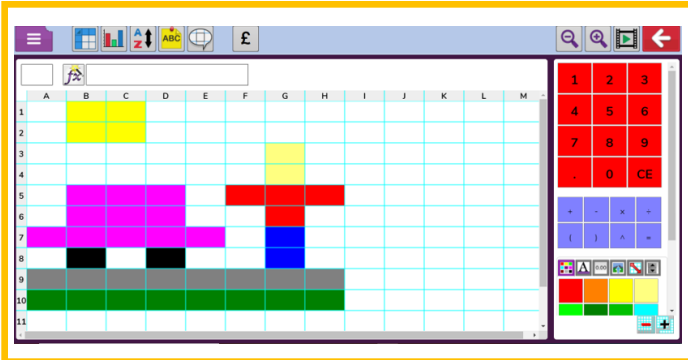

In English we have been learning all about “The Fastest Boy in the World” – A fantastic book based on Olympic runners, set in Ethiopia! We have been able to create dairy entries, newspaper articles and we even recorded our own TV news show!

In Science we have been focusing on animals including humans, looking at all the things we need to survive, as well as the human body! The class loved examining food packets to work out what was healthy and what wasn't. We also carried out a brilliant experiment where we discovered most of the class could jump further than Miss Stanworth!

In computing our focus has been all about spreadsheets – we've loved the challenges involved in using formula's to create maths problems and pictures! The children loved challenging each other to guess their picture.

In RE our focus has been on the Passover in Judaism. We have learnt about the different rules Jewish people face, what meals make up the Sedar Plate and why it is important for Jewish people to follow these rules.

As well as all of the amazing learning taking part in class, we've also had a brilliant friendship disco and wellbeing day – this included playing the drums and planting our own sunflowers to show our growth mindsets!
