

# 5 Boyle - Autumn 2

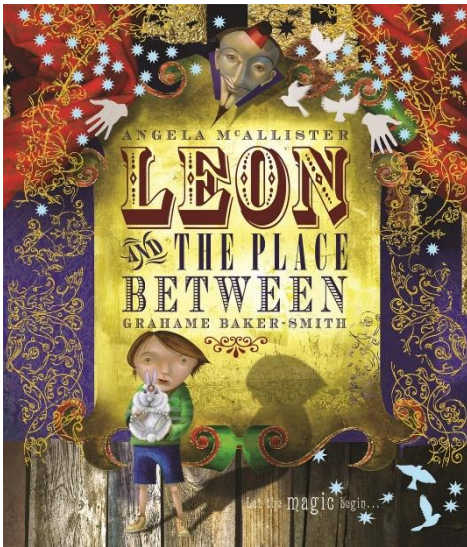

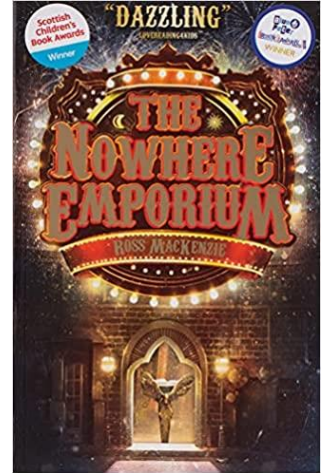

Another fantastic half term learning and shining in Year 5!

## English

We've looked at two books this half term, both about fantastical places and full of magic and mystery.

This led to writing some beautiful stories with detailed descriptions of our own imaginary worlds.

We followed on from this by writing a report all about another amazing place. This time, writing a guide to Lapland to help tourists to learn more about the home of Father Christmas!

## Maths

Our focus this half term has been on multiplication and division – looking at solving problems involving area and moving onto how to use formal written methods for calculations.

The children have challenged themselves and brushed up on their times table knowledge too. Didn't they look fabulous on "Rock star" day?

# Wesley Methodist Primary School

Our super scientists have been learning all about what makes up space, our solar system and beyond. They have learnt about the phases of the moon and the planets that make up our solar system. We completed our work by creating a quiz for 5 Bell to show off what we have learnt!

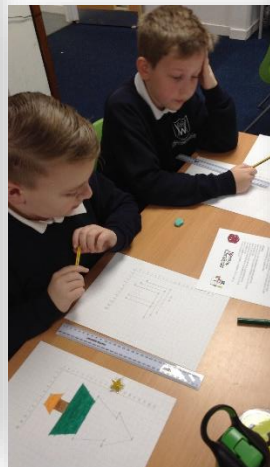

In RE we began the half term by learning a little more about what it means to be a member of the Methodist church and spent some time talking to Rev. Chris about his own experiences and beliefs. We also looked at the many different versions of the nativity and what it means to be "true" and its significance to Christians.

We love to be creative in 5 Boyle and this half term we've been able to flex our artistic muscles in lots of different ways!

In DT we designed and made greetings cards with light up features.

We also designed and made our own Christmas stockings building on skills we learnt in year 4. If you were lucky enough to see the children in their Christmas show, you will know just how much they enjoy performing. In the last 2 weeks, we rehearsed a Christmas poem for performance and recorded a Christmas song we will share with you before Christmas – keep your eye on dojo!
