

Our Science this term has been all about Forces. We have had a great time investigating friction, air resistance, upthrust and gravity.

## 5 Bell Autumn 2021

A real special time for us have been our Forest school sessions which have been warm and dry... So far!

In our English work, we have produced some amazing writing, poetry and newspaper reports and shared what we liked about it and how it could be improved in our 'Juice and Jabber' sessions.

In History, we have been learning how the Ancient Greeks used to live in city states and how they often fought with each other.

We even had our own battle in Greek Phalanxes.
